QRs FOR BULLET PROOF JACKET FOR DOG

1. Protection. It should be available with at least NIJ level II protection to the Dog and should provide protection to full chest, back and under belly (The firm to provide necessary authentic lab certificate for NIJ level II protection).

2. Design

(a) The bullet proof jacket should have a "Yoke" design to maximize the freedom of movement of the dog, body heat dissipation, ventilation and protection of vital organs from injury.

(b) The bullet proof jacket should have a three piece design allowing easy adjustability for a secure fit and easy maneuverability.

(c) The bullet proof jacket should have adjustable Velcro and elastic straps for snug fitting to the body of the dog, especially at the shoulders and the abdomen.

3. Size

(a) The bullet proof jacket should fit into any dog weighing from 30-45 kgs.

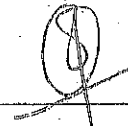

(b) The bullet proof jacket should not weigh more than 3 kgs

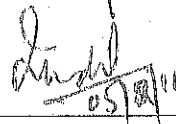

4. Material

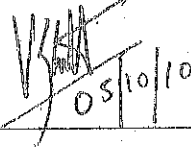

(a) The outer bullet proof jacket cover should be black in colour made up of Water proof cloth of sufficient strength to hold the weight for prolonged periods.

(b) The cover of the bullet proof jacket should be made up of at least 3 ply, breathable, water resistant and easy to clean material.

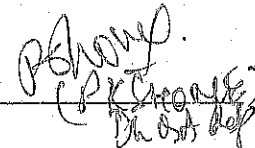

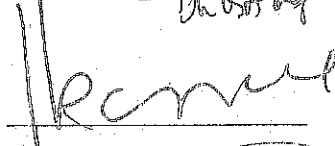

5. Warranty. The seller should provide minimum 1 year of warranty on the complete item.
