**Air courier services for Central Armed Police Force
personnel have not been suspended**

April 08, 2022

The Air courier services for Central Armed Police Force personnel have not been suspended. The services are running since July, 2010. The privatization of Air India resulted in a slight delay in the finalization of tenders by the Border Security Force. The Ministry of Home Affairs (MHA) has already granted approval for continuation of services by Air India. The tender has also been finalized and orders are under issue.

The amount due on account of air travel would also be paid as per rules.
