

No.21023/06/2020-PP
Government of India
Ministry of Home Affairs
[Police Division-II]

North Block, New Delhi, 110001
Dated, the 17th February, 2023.

To

The Director General of Police of Govt of Karnataka
The Director General of Police of Govt of Kerala
The Director General of BSF

Subject:-: UNMISS- Deployment of Individual Police officer to South Sudan –regarding
Sir,

I am directed to refer to this Ministry's letter of even number dated 03.08.2022 and copy of facsimile No. IND-UNMISS-52908 dtd 07.02.2023 and subsequent travel authorization email dtd 08.02.2023 (**copy enclosed**) received from United Nations Police Division on the above mentioned subject and to inform that UN Police Division through Permanent Mission of India to United Nations has conveyed deployment authorization of Shri Hadya Shankarappa Jagadeesha (SAAT rank 36);, Dy SP, Karnataka, Shri Suresh Singh Karki, DC, BSF (SAAT rank 38) and Shri Arun Raj Vilasini Nagappan Nair, Dy SP/ACP, Kerala (SAAT rank 37) as Individual Police Officers (IPOs) tentatively on 15.03.2023 to the UNMISS.

2. While deploying police personnel, United Nations Police Division has requested to adhere to UN guidelines on CoVID-19 and quarantine. UNPD has also requested that the incoming police officers must have required quantity of Personnel protective equipment and CoVID-19 vaccination Certificate and Covid-19 free certificate with the validity of 72 hours prior to travel from India to Mission area. Regional Service Centre, UN, Entebbe, Uganda will be sending their tickets and other documents.

3. Therefore, it is requested to convey the availability of above mentioned officers for deployment and relive them with the direction to report to the National UNCIVPOL Center, ITBP, New Delhi on or before 10th March, 2022 to complete the travel formalities on time and ensure smooth deployment to mission UNMISS(South Sudan).

4. The officers may please be informed that they should do online E-protect course before joining mission. The course is mandatory and the medical unit will also be looking for the Ebola E-protect course.

5. The concerned officer may be requested to note the following points and to go through the attached documents carefully which contain various instructions/guidelines, provision of COVID-19 PPE according to activities to be undertaken by the officers. The officers may also be advised to go through the facsimile received from UN Police division carefully (**copies enclosed**):

- i. **CASH:** They must bring sufficient cash (USD) to sustain two (2) weeks during the induction in a regional Centre or the Mission Area (at least \$100 per day). Officer's can't expect to receive MSA on the day of arrival and need to be able to pay for food and hotel. The MSA payments, including the final one are hindered with the lack of required national banking details of the UN Police officers back home. During the check-in, UN

- Police officer must provide the details of bank accounts in their own country i.e. Account Name, Account Number, Account Type (checking or saving), Bank Name, SWIFT code, IBAN number (if available) bank address, including city and country.
- ii. **Travel Arrangements** have been requested and are subject to travel authorization and ticketing process by the field mission, and flight availability. The travel unit in Entebbe will issue e-tickets, as well as other documentation for the group and will communicate in due course.
 - iii. **VISA:** Officers must carry valid visa.
 - iv. **Vaccination Certificate** – Yellow Fever vaccination and malaria vaccination are mandatory and proof of immunisation must be produced at entry for all travellers.
 - v. **Malaria:** Malaria Prophylaxis is required. Please see the Guidelines for UN Police Officers on assignment with peace keeping operations and the Travel Advisory which is attached to the travel authorisation.
 - vi. **Fragmentation VEST & HELMET:-** With reference to the guidelines for UN police officers on assignment with peace keeping operations and to the equipment list for police officers (list attached), each Police officer must bring a fragmentation vest and Kevlar helmet for his/her personal protection. Failure to meet this requirement may result in the denial of the deployment.
 - vii. **In-Mission test in Language & Driving** – Police Officers are subject to in-mission assessment in driving skills. Police officers must have at least two years recent driving experience, and must be in possession of valid national or international civilian driving licenses. Police officers must present their valid national driving licences upon arrival in the mission area., The license should be valid during their service.
 - viii. **Online Courses** : Please be advised that the following online courses are mandatory for newcomer(s), and certificate will be needed for the check-in formalities upon their arrival. Certificates must be printed upon completion of courses, if a printer is not available, all staff may be able to log-on at one of the Mission computers to print the certificates upon arrival (Links given below):
 - ❖ Basis and Advance Security : <https://training.dss.un.org/course/detail/19948> (English)
 - ❖ Ethics & Integrity : <http://portals.unssc.org/enrol/index.php?id=13>
 - ❖ Prevention of Sexual Harassment, and Abuse of Authority in the workplace : <http://portals.unssc.org/enrol/index.php?id=80>
 - ix. The Check-In formalities :- In order to facilitate the Check-in process, all Police officers should bring the following documents and have them available upon arrival”-
 - National Passport (official)with at least two years validity period
 - Travel authorisation
 - Visa authorization letter where applicable
 - “To Whom it May Concern” letter
 - National driving licence with at least two years validity period
 - Home Banking account details (swift code, e-bank, address, account, etc)
 - **COVID vaccination certificate (all doses) and vaccination free certificate (validity should not exceed 72 hours prior departure).**
 - Certificate of required vaccinations and malaria prophylaxis when required
 - x. The original receipt certifying depositing of their personal passport with the issuing authority in case of any passport held earlier. They must carry out a hard copy of MOFA and the same passport which is indicated in Visa (MOFA), only in civilian clothes.

- xi.** Relieving order/NOC issued by the **HOME DEPARTMENT** at the time of reporting at National UN CIVPOL Centre.
- xii.** Original Official Passport.
- xiii.** **Recommended clothing & equipments and mandatory documents as per the list.**
- xiv.** In case any officer(s) fails to accept the offer for appointment, he/there will be debarred for 03 years for further deployment/detailment with any UN assignments /foreign courses.
- xv.** **Measures to prevent spread of CoVID-19:-**
 - I. Police Personnel must be familiarised with standard precautions to reduce the risk of exposure to COVID-19, including hand hygiene, physical distancing and other basic procedures, as required and in line with the **enclosed guidance** on the “Use of PPE and Cloth Face Coverings for United Nations Personnel in Non-Healthcare Settings”
 - II. Police Personnel must be also equipped with necessary Personal Protection equipment (PPE) and cloth face covering, as elaborated in the afore-mentioned guidance enclosed. The Police Officers must be familiarised and equipped with the “Basic Readiness Standards for the Personal Protection of United Nations Police prior to deployment amidst CoVID-19”

6. The UN only pays subsistence allowance during the period of deployment within UN Mission area. The pay and allowances are to be paid by the lending authority. The officers may also be allowed to retain Government accommodation/telephone etc., if any held by them.

7. It must be ensured that the above police officers have rendered 08 years of police service including training period and are clear from vigilance angle. They have to compulsorily get the uniform and bear the cost of uniform from their personal saving. They are entitled to carry 100 Kg. total baggages, including hand/Cabin baggage.

8. It is, therefore, requested that the officer may be relieved to report to the Commandant, National UN CIVPOL Centre, 22nd Bn ITBP, Opposite Batra Hospital, New Delhi on/before **10.03.2023** to complete their travel formalities before departure to the mission area(UNMISS) on expected date of deployment (14.12.2022).

Yours faithfully,

(K Prakasham)

Under Secretary (Pers Policy & Welfare)

USE OF PPE & CLOTH FACE COVERINGS FOR UN PERSONNEL IN NON-HEALTHCARE SETTINGS IN AREAS OF COVID-19 COMMUNITY TRANSMISSION

8 June 2020

Introduction

Personal protective equipment (PPE) (e.g. medical masks¹ and N95 or equivalent respirators²) should be prioritised for health care workers/carers of COVID-19 patients. Additionally, medical masks are shown to be effective as source control for symptomatic COVID-19 patients.

In this context, this document provides **guidance on the use of PPE and cloth face coverings for all UN personnel who engage in work tasks that require close and frequent interaction with people whose infectious status is unknown**³. (Such individuals could include uniformed personnel, security personnel, patrol units, receptionists, drivers, personnel involved in food distribution, humanitarian workers...etc.) Please note that all task-specific requirements and existing SOPs for wearing protective equipment and taking general precautions would still apply, and should not be superseded by this guidance.

This guidance focuses on **personnel working in a non-healthcare setting, and in areas of significant community transmission of COVID-19**⁴.

The recommendations in this document should be adapted to the context in which you are working, and you should take into account your local health authorities' advice. Where cloth masks and other PPE are mandated by the government, all UN personnel should abide by such regulations. The implementation of this guidance should also abide by the findings of the risk assessment done in your duty stations as part of response to COVID-19.

Evidence for Masks Use

COVID-19 is thought to spread via two main routes of transmission⁵ – respiratory droplets and contact (directly with the patient or indirectly with fomites/environment). In settings in which procedures that generate aerosols are performed, airborne transmission may be possible and this is an ongoing area of study.

Studies show that **an infected/ill person who wears a medical mask¹ can prevent the spread of infectious droplets from that infected person to someone else**. WHO^{6,7} states that at present there is no high quality or direct scientific evidence on the effectiveness of universal masking of healthy people in the community to prevent infection from respiratory viruses including COVID-19. However,

¹ Medical masks are also known as "surgical" or "procedure" masks

² E.g. N95 or FFP2 or FFP3 respirators

³ Such persons may not be a confirmed or suspect case of COVID-19.

⁴ If needed, please contact your local medical service and/or local WHO office to check if your duty station meets the criteria. Further PPE guidance specific to healthcare settings is available at the "UN Medical Directors COVID-19 Pandemic Guidelines" available at <https://www.un.org/en/coronavirus/reference-documents-administrators-and-managers>

⁵ Respiratory droplets are generated when an infected person coughs or sneezes. Any person who is in close contact (within 1 m) with someone who has respiratory symptoms (coughing, sneezing) is at risk of being exposed to potentially infective respiratory droplets. Droplets may also land on surfaces where the virus could remain viable; thus, the immediate environment of an infected individual can serve as a source of transmission (contact transmission).

⁷ [https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-\(2019-ncov\)-outbreak](https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-(2019-ncov)-outbreak)

given a multitude of factors, the WHO has updated its guidance to advise that **to prevent COVID-19 transmission effectively in areas of community transmission, governments should encourage the general public to wear masks in specific situations and settings as part of a comprehensive approach to suppress transmission.** See [https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-\(2019-ncov\)-outbreak](https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-(2019-ncov)-outbreak) for more information.

In summary, WHO advises that:

- In settings with known or suspected wide spread transmission with limited or no capacity to implement public health measures or in high density population where public health measures described cannot be implemented (eg. Camp-like setting, refugee camps, other cramped conditions) **then non-medical mask should be considered for a potential benefit of source control.**
- In other situations where physical distancing cannot be achieved such as general public transport, or specific working conditions where the individual is in close contact with others, **a non-medical mask can be considered.**
- For high risk populations where physical distancing cannot be achieved and risk of infection or outcome of infection is high the WHO says **to consider medical masks in these individuals in addition to those with symptoms** (source control).

Universal Precautions for UN Personnel Working in Non-Health Care Settings

Use of PPE or masks is insufficient by itself and should not be relied on alone as a primary prevention strategy. All UN personnel working in close contact with others should follow the following **standard precautions which include hand hygiene, cough etiquette and physical distancing** to reduce the risk of exposure to the virus, including:

- **Hand hygiene:** *Perform hand hygiene frequently. Perform hand hygiene with alcohol based hand rub (minimum 60% alcohol) for at least 20 seconds, or with soap and water for at least 40 seconds. Do not touch your face with unwashed hands.*
- **Physical distancing:** *Avoid close physical contact with others, including shaking hands and hugging. Maintain physical distance of at least 2m distance between yourself and others, especially those with respiratory symptoms (e.g., coughing, sneezing). Whenever possible, install physical barriers such as plexiglass. Place physical barriers to help maintain at least a 2m distance such as tables, chairs, cordon of areas. Use signs/stickers to show appropriate distancing.*
- **Respiratory hygiene (cough etiquette):** *Cover their nose and mouth with a bent elbow or paper tissue when coughing or sneezing. Dispose of the tissue immediately after use, and perform hand hygiene.*

Recommended PPE and Cloth Face Coverings for UN Personnel According to Activities

The following table outlines recommendations related to use of PPE and cloth face coverings for UN personnel who come into contact with the general public as part of their work duties. The recommendations consider both standard precautions principles, as well as specific COVID-19 related masks/PPE guidance from WHO.

Note that PPE shortages are anticipated in every category during the COVID-19 response, and **PPE should always be critically reserved for health care workers and symptomatic patients.**

Please note that all task-specific requirements and existing SOPs for wearing PPE and taking general precautions would still apply, and should not be superseded by this guidance.

Table 1: Recommended PPE and Cloth Face Coverings According to Activities Undertaken

Category No.	Activities Undertaken by Personnel	Type of PPE / Cloth Face Covering Required to Reduce COVID-19 Exposure
1	Able to maintain at least 2m distance from others	No PPE required. Cloth face covering can be considered for use. (Not generally needed if maintaining 2 meter distance).
2	Not able to maintain at least 2m distance from others No physical contact with others	Cloth face covering can be considered for use.
3	Not able to maintain at least 2m distance from others Have direct physical contact with others	Cloth face covering and gloves can be considered as local supply allow.
4	Not able to maintain at least 2m distance from others Anticipate splashes or exposure to bodily fluids.	Cloth face covering, medical mask, eye protection, and gloves and can be considered as supply allows and as per one's risk assessment of situation.

Specifications for Cloth Masks

The WHO has recently included guidance around cloth masks, though they are not considered as a medical device, or PPE. A non-medical mask standard was developed by the French Standardization Association (AFNOR Group) to define minimum performance for filtration, breathability details of which are found at: [https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-\(2019-ncov\)-outbreak](https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-(2019-ncov)-outbreak)

Alternatives to Cloth (non-medical) Mask: In the context of non-medical mask shortages, face shields may be considered as an alternative noting that they are inferior to masks with respect to prevention of droplet transmission. Shields would need to have a proper design that covers the side of the case and goes below the chin.

Management of Masks

Always remember that mask usage cannot replace other critical public health measures like physical distancing and hygiene.

If an individual decides to use cloth face coverings, below are useful resources on non-medical masks:

IFRC: http://prddsgofilestorage.blob.core.windows.net/api/sitreps/3972/Cloth_mask_guidance_IFRC_Covid.pdf

CDC: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

WHO: [https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-\(2019-ncov\)-outbreak](https://www.who.int/publications/i/item/advice-on-the-use-of-masks-in-the-community-during-home-care-and-in-healthcare-settings-in-the-context-of-the-novel-coronavirus-(2019-ncov)-outbreak)

For any type of mask, appropriate use and disposal are essential to ensure that they are effective and to avoid any increase in transmission. Pay attention to the correct use of masks as follows:

- Masks are effective only when used in combination with frequent hand washing with alcohol-based hand rub or soap and water
- Place the mask carefully, ensuring it covers the mouth and nose, and tie it securely to minimize any gaps between the face and the mask.
- Avoid touching the mask while wearing it.
- Masks should be changed whenever they become dirty or moist.
- Replace masks as soon as they become damp with a new clean, dry mask.
- Remove the mask using the appropriate technique: do not touch the front of the mask but untie it from behind.
- After removal or whenever a used mask is inadvertently touched, clean hands using an alcohol-based hand rub or soap and water if hands are visibly dirty.
- Do not re-use single-use masks.
- Discard single-use masks after each use and dispose of them immediately upon removal.
- Cloth face coverings should be washed frequently and handled carefully, and changed if soiled or wet⁸.
- Cloth face coverings should be completely dry after washing before using them.
- Cloth face coverings should not be shared with others
- See WHO guidance on details on how to wash masks
