QRs & Trial Directives of RFID Scanner /Reader

S.No	Parameter	Specification	Trial Directives	Result expected /desired
RFID is Radio Frequency Identification refers to a wireless system comprised of two components Tags and Readers, which use Radio wave to communicate their identity and other information to nearby readers can be passive or active.				Must be as per specification
A. SCANNER /READER				
1.	Frequency	Between(865 – 867 MHz)	To be physically checked by the BOO and OEM certificate also submitted by firm in respect of same	Must be as per specification
2.	Read & Write Range	0 to 25 Feet (As per user Requirement)	To be physically checked by the BOO	Must be as per specification
3.	Reading Rate	Software programmable (Max read 200 Tags/Second)	To be physically checked by the BOO	Must be as per specification
4.	R F Power output	0-30dBm (Adjustable)	OEM certificate be submitted by firm in respect of same.	Must be as per specification
5.	Interface / Communication Port	USB/LAN/Serial	To be physically checked by the BOO	Must be as per specification
6.	Power Supply	DC (Power Adapter) or Powered by USB	To be physically checked by the BOO	Must be as per specification
7.	Working Mode	Read and Write Facility	To be physically checked by the BOO and OEM certificate also submitted by firm in respect of same	Must be as per specification
8.	Supporting Operating System	Windows 10 & above	To be physically checked by the BOO	Must be as per specification
9.	Protocol	ISO 18000-6B, EPC Class I Gen2 (ISO 18000-6C) or better	OEM certificate submitted by firm in respect of same	Must be as per specification
10.	Software Support	Host Application & SDK Provided	To be physically checked by the BOO	Must be as per specification
11.	Operating Mode	Manual and Automatic Both	To be physically checked by the BOO	Must be as per specification
12.	Reading Clue/Indicators	LED & Buzzer	To be physically checked by the BOO	Must be as per specification
13.	Temperature (Operating &	-10°C to +60°C	Firm has to submit NABL accredited/ILAC certificate/any Indian Govt Lab certificate in	Must be as per specification

[Handwritten signatures and initials at the bottom of the page]

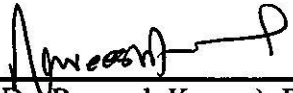

S.No	Parameter	Specification	Trial Directives	Result expected /desired
	Storage)		respect of the same.	
14.	Humidity	5 – 95% RH non condensing	Firm has to submit NABL accredited/ILAC certificate/any Indian Govt Lab certificate in respect of the same.	Must be as per specification
15.	Protection Class	IP 65 OR Better	Firm has to submit NABL accredited/ILAC certificate/any Indian Govt Lab certificate in respect of the same.	Must be as per specification
B. INVENTORY SOFTWARE				
1.	Maintain TAG Registration		To be physically checked by the BOO	Must be as per specification
2.	Real time reading for each item during IN & OUT with time stamp		To be physically checked by the BOO	Must be as per specification
3.	User Authentication	Biometric (Finger/Thumb)	To be physically checked by the BOO (The Compatible Bio metric Machine to be supplied by Firm)	Must be as per specification
4.	Issuer Authentication	Biometric (Finger/Thumb)	To be physically checked by the BOO (The Compatible Bio metric Machine to be supplied by Firm)	Must be as per specification
5.	Type of issue	Less than 24 Hrs/More than 24 Hrs	To be physically checked by the BOO	Must be as per specification
6.	Report Generation	Daily, Weekly, Monthly & Yearly summery	To be physically checked by the BOO	Must be as per specification
7.	OS Supported	Windows	To be physically checked by the BOO	Must be as per specification
C. MISCELLANEOUS				
1.	Warranty	02 years or more	OEM certificate submitted by firm in respect of same	Must be as per specification
2.	User Manual & Developing/Programming User Guide		To be physically checked by the BOO	Must be as per specification
3.	Operation Manual/technical Manual - Detailed operators instructions, Technical literature, Maintenance manual, inspection standards be provided with the equipment		To be physically checked by the BOO	Must be as per specification

S.No	Parameter	Specification	Trial Directives	Result expected /desired
4.	Training :- a) Base Workshop level training to minimum 10 technicians at OEM premises on full-fledged running testing, diagnostic and calibration set up. b) Operator level training should be imparted to 02 persons @ each system		An under taking should be given by the firm	Must be as per specification
